The application has been amended as follows:

IN THE SPECIFICATION

The title was changed to -- Method and apparatus for the biological activated sludge treatment of wastewater --

The following is an examiner's statement of reasons for allowance: Although U-shaped transfer pipes abound in wastewater treatment equipment and methods, see, for example, US 6514410 B1, US 6103123 A, US 5866002 A, and US 4024060 A, the prior art fails to teach or suggest a wastewater treatment apparatus having "a U-shaped pipe-piece providing arms for [recirculation, with] one arm of the U-shaped pipe-piece being situated in the anterior reactor, [and] another arm of the U-shaped pipe-piece being situated in the main reactor." Moreover, the art fails to teach or suggest a method of wastewater treatment comprising the step of filling phase in which a U-shaped pipe-piece is used to transfer untreated wastewater from an anterior reactor to a main reactor.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
